- **0=maintenance** of engine and transmission maintenance. Bring down your maintenance spending by up to 30%, just focus on tyres and brakes.
- **Shorter workshop stops** to our quick diagnosis.
- Two-year manufacturer's **warranty.**

TECHNICAL SPECIFICATIONS

Top Speed	L3e = 90km/h L1e = 45km/h
Weight without batteries	153 Kg
Battery weight	4Kwh = 27 kg 6Kwh = 35 kg
Net Load	120 kg (100 kg rear and 20 kg in front)
Maximum authorised weight	395 kg
Front & rear wheels	130/70r13
Front & rear brakes	Free Disc ø220mm
Brake System	Combined CBS
Shock	Hydraulic
Dimensions	2150*710*1260 mm
Wheelbase	1620 mm
Distance to the floor	149 mm
Engine	L3e = 2x4000W L1e = 2x2000W
Engine type	Brushlees (HUB) 0
Characteristics	Regenerative brake, engine brake
BMS (Battery management system)	Counter System: Manage the cells' voltage, the quantity of battery's charges and discharges and the temperature.
Lighting	LED
Cockpit functions	Speed, SoC (State of Charge), Trip1, Trip 2, Time
Extras	1A Cigarette lighter receptacle
Charger	600W On-board / Of-board
Heater	Battery pack with 55W heater (while charging)
Stabilization system	When stopped
Driving modes	3 Driving modes ECO, CITY, SPORT and Reverse Gear

BATTERY PACKS

PACK POWER	4 KWh	6 KWh
MAX. SPEED	80 Km/h	80 Km/h
AVERAGE RANGE 45-80 Km/h		
Urban use	90-75 Km	125-100 Km
Homologated EURO IV	164-141 Km	215-185 Km

wThe manufacturer reserves the right to modify the specifications of the model SO3i without prior notice, due to its technological evolution.

0 emissions

Feel a new urban driving experience with the **S03i** model, a 100% sustainable electric scooter designed for your daily use. Without noise or vibration, enjoy an intelligent driving and save on each journey.

SILENCE is innovation, technology and environmental commitment. Since 2012 designing and manufacturing scooters and battery packs.
